2022-2025 Instructional Technology Plan - 2021

I. District LEA Information

Page Last Modified: 04/25/2022

1. What is the name of the district administrator responsible for entering the Instructional Technology Plan data?

Joanne Palamaro

2. What is the title of the district administrator responsible for entering the Instructional Technology Plan data?

Other

2a. If 'Other' was selected in Question 2 above, please identify the title.

Director of Finance and Technology

For help with completing the plan, please visit 2022-2025 ITP Resources for Districts on our website, contact your district's RIC, or email edtech@nysed.gov.

2022-2025 Instructional Technology Plan - 2021

II. Strategic Technology Planning

Page Last Modified: 04/25/2022

1. What is the overall district mission?

Inspire and empower each learner to reach their full potential.

2. What is the vision statement that guides instructional technology use in the district?

An innovative, high performing rural school district delivering educational excellence.

3. Summarize the planning process used to develop answers to the Instructional Technology Plan questions and/or your district comprehensive Instructional Technology Plan. Please include the stakeholder groups participating and the outcomes of the instructional technology plan development meetings.

At SECSD, a strategic action planning committee meets regularly to implement a continuous improvement process, including goal planning and monitoring. This committee is comprised of teachers, parents, board members, and administrators, and it is charged with developing and implementing plans, including our district technology plan. During the 2021-2022 school year, the committee convened for two full days (July 27 and 28, 2021) and continues to meet quarterly throughout the school year. The meeting began with a review of the District's strategic plan (developed during the 2020-2021 school year) and a brainstorming session using a crowdsourcing platform. After the two full days in the summer, a comprehensive plan, including instructional technology, was developed and shared with all stakeholders. The main outcome of this planning was the clear need for consistency across the District in instructional practices, curricula, assessments, and technology integration.

4. How does the district's Instructional Technology Plan build upon, continue the work of, and improve upon the previous three-year plan?

The District plans to refine its 1:1 implementation, which was introduced in the last Instructional Technology Plan. While the previous plan focused on the introduction and distribution of 1:1 devices, this plan will focus on advancing the skill sets of both faculty and students. Following the SAMR model (Romrell et al., 2014), our previous plan was based in the substitution degree. We are now moving into the augmentation degree, with some early adopters working toward modification. New hardware and software was introduced at the building levels. We now need to advance this to a cohesive district model. In order to do this, staff has been added to support and oversee this endeavor. Romrell, D., Kidder, L.C. & Wood, E. (2014). The SAMR Model as a Framework for Evaluating mLearning.

5. How does the district Instructional Technology Plan reflect experiences during the COVID pandemic?

During the onset of the COVID 19 pandemic, instruction was provided in an entirely online environment. In order to support families, the district provided hot spots, flashdrives, and locations in which to access the District's wifi network. While some teachers had taken advantage of Google Classroom previously, the online environment necessitated widespread usage at the middle and high Schools and the elementary school adopted the online learning platform, Seesaw. As we transitioned into the 2020-2021 school year, the blended school model was implemented with cohorts attending school in-person on alternate days. A fully virtual model was also available throughout the school year. In order to support virtual learners, a teacher was assigned to serve as a liaison to parents and caregivers for technology assistance. Effective practices acquired during the pandemic have continued as we have moved back to an in-person model. As such, the plan reflects the advancement of best practices uncovered during the pandemic. We drew upon the feedback we received from parents and community stakeholders through surveys and crowdsourcing platforms to guide us in developing our new plan.

6. Is your district currently fully 1:1?

Yes

06/28/2022 11:35 AM Page 2 of 23

2022-2025 Instructional Technology Plan - 2021

II. Strategic Technology Planning

Page Last Modified: 04/25/2022

7. Please describe the professional development plan for building the capacity of educators and administrators in the attainment of the instructional technology vision as stated in response to question 2.

The District's Professional Development Plan for Teaching and Learning (PDP) includes the provision of various forms of professional development, including:

- 1. workshops
- 2. study groups
- 3. round tables
- 4. online courses
- 5. webinars
- 6. book studies
- 7. credit-bearing courses
- 8. district professional meetings

These formats are provided to staff members in the area of instructional technology. All approved activities must be relevant and aligned to the District's Vision and Mission. In order to fulfill our goals in the technology plan, we have added an additional staff member, a BOCES Technology Integration Specialist, to coordinate and implement professional development aligned with our technology plan. Professional development will be offered in the summer, after school, and on staff development days.

For help with completing the plan, please visit 2022-2025 ITP Resources for Districts on our website, contact your district's RIC, or email edtech@nysed.gov.

06/28/2022 11:35 AM Page 3 of 23

2022-2025 Instructional Technology Plan - 2021

III. Goal Attainment

Page Last Modified: 04/22/2022

Overview: In this new section, the District is asked to outline the extent to which they have achieved, at the local level, goals put forth in the 2010 Statewide Learning Technology Plan.

 Digital Content – The District uses standards-based, accessible digital content that supports all curricula for all learners. The district has met this goal:

Moderately

2. Digital Use – The District's learners, teachers, and administrators are proficient in the use of technology for learning. The district has met this goal:

Significantly

3. Digital Capacity and Access – The District's technology infrastructure supports learning and teaching in all of the District's environments. The district has met this goal:

Significantly

4. Leadership – The District Instructional Technology Plan is in alignment with the Statewide Learning Technology Plan vision. The district has met this goal:

Significantly

Accountability – District-level information is posted on the District website, is easy to access, and is
easily understood. Information provided includes the results achieved by the District in their efforts to enable
students to build knowledge, master skills, and grasp opportunities for a better life. The district has met this goal:

Significantly

For help with completing the plan, please visit 2022-2025 ITP Resources for Districts on our website, contact your district's RIC, or email edtech@nysed.gov.

06/28/2022 11:35 AM Page 4 of 23

2022-2025 Instructional Technology Plan - 2021

IV	Action	Plan -	- Goal 1

Page Last	Modified:	06/24/2022
-----------	-----------	------------

1.	Enter Goal 1 below:
	Implement Computer Science & Digital Fluency Standards
2.	Select the NYSED goal that best aligns with this district goal.
	Provide technology-enhanced, culturally- and linguistically-responsive learning environments to support improved teaching and learning
3.	Target Student Population(s). Check all that apply.
	☐ All students ☐ Early Learning (Pre-K -3) ☐ Elementary/intermediate ☐ Students who are targeted for dropout prevention or credit recovery programs ☐ High School ☐ Students with Disabilities ☐ English Language Learners ☐ Students who are migratory or seasonal farmworkers, or children of such workers ☐ Students experiencing homelessness and/or housing insecurity ☐ Explication of the proposed internet access at their place of residence ☐ Students who do not have internet access at their place of residence ☐ Students who do not have internet access at their place of residence ☐ Students experiencing homelessness and/or housing insecurity ☐ Students in foster care ☐ Students in juvenile justice system settings ☐ Vulnerable populations/vulnerable students ☐ Other (please identify in Question 3a, below)
4.	Additional Target Population(s). Check all that apply. ☐ Teachers/Teacher Aides ☐ Administrators ☐ Parents/Guardians/Families/School Community ☐ Technology Integration Specialists ☐ Other
5.	How will this instructional technology goal be measured and evaluated during and after implementation? Be sure to include any tools and/or metrics that are part of this evaluation process. Examples might be formative data, local, state, and/or national LEA benchmarks, metrics from instructional software, other technology evaluation programs, etc.
	During the awareness and capacity building stages, attendance at professional development focused on the CS & DF Learning Standards will be monitored to ensure that all instructional staff members receive the necessary information regarding the standards and implementation process. Surveys will be implemented to monitor professional understanding. The syllabi of any computer science courses will be evaluated to make sure that CS & DF standards are integrated. During the full implementation stage, careful review of curriculum pacing guides will occur to gather evidence of CS & DF standards. In addition, specific areas will be monitored via metrics from instructional software, such as keyboarding fluency.
6.	List the action steps that correspond to Goal #1 from your answer to Question 1, above. All cells in the table must

be populated. If you have less than four action steps for this goal, you must enter N/A into columns two, three, four, five, and seven, and choose June 30, 2021 in the date column for all unneeded rows in the table.

☐ English Language Learners	places of residence
☐ Students who are migratory or seasonal farmworkers,	☐ Students who do not have internet access at their place
or children of such workers	of residence
☐ Students experiencing homelessness and/or housing	☐ Students in foster care
insecurity	☐ Students in juvenile justice system settings
	□ Vulnerable populations/vulnerable students
	☐ Other (please identify in Question 3a, below)

4. Additional Target Population(s). Check all that apply.

Teachers/Teacher	Aides

- ☑ Administrators
- ☐ Parents/Guardians/Families/School Community
- ☑ Technology Integration Specialists
- □ Other

5. How will this instructional technology goal be measured and evaluated during and after implementation? Be sure to include any tools and/or metrics that are part of this evaluation process. Examples might be formative data, local, state, and/or national LEA benchmarks, metrics from instructional software, other technology evaluation programs, etc.

Attendance at professional development offerings will be monitored. By the completion of this plan, all District instructional classrooms will be equipped with interactive panels. Other hardware updates will include new 1:1 devices for students, as well as teachers. Inventory will be closely monitored to ensure this vision. Instructional staff skill levels will be assessed at the beginning, middle, and end of our plan implementation using a SAMR self-monitoring survey. Results of these surveys will guide future planning.

6. List the action steps that correspond to Goal #2 from your answer to Question 1, above. All cells in the table must be populated. If you have less than four action steps for this goal, you must enter N/A into columns two, three, four, five, and seven, and choose June 30, 2021 in the date column for all unneeded rows in the table.

2022-2025 Instructional Technology Plan - 2021

V. NYSED Initiatives Alignment

Page Last Modified: 04/25/2022

1. Explain how the district use of instructional technology will serve as a part of a comprehensive and sustained effort to support rigorous academic standards attainment and performance improvement for students.

Technology will be integrated throughout our daily instruction in order to support student engagement and learning. Access to technology levels the playing field for students in a small, rural community. Teachers utilize several platforms to enhance their instruction, including applications such as Google Classroom and Seesaw. In addition, software applications are utilized to reinforce and practice concepts.

2. Explain the strategies the district plans to implement to address the need to provide equitable learning "everywhere, all the time" (National Technology Plan). Include both short and long-term solutions, such as device access, internet access, human capacity, infrastructure, partnerships, etc.

Each student will continue to be provided with a district-issued device. Internet access is supported as needed with district-issued hotspots. Staffing for equitable learning through technology is supported by a CoSer with BT BOCES.

3. Students with disabilities may be served through the use of instructional technology as well as assistive technology devices and services to ensure access to and participation in the general education curriculum. Describe how instruction using technology is differentiated to support the individual learning needs of students with disabilities.

Each student, including those with disabilities, will continue to be provided with a district-issued device. Software applications and peripheral devices are assigned to meet the individual needs of students with disabilities, as outlined in their Individualized Education or 504 plans. Software applications utilized within our District include speech to text, text to speech, and Boardmaker. Peripheral devices include those necessary for amplification and magnification. Supplemental instructional materials differentiated to student needs include Raz Kids and iXL.

- 4. How does the district utilize technology to address the needs of students with disabilities to ensure equitable access to instruction, materials, and assessments? Please check all that apply from the provided options and/or check 'Other' for options not available on the list.
 - ☑ Class lesson plans, materials, and assignment instructions are available to students and families for "anytime, anywhere" access (such as through a class website or learning management system).
 - □ Direct instruction is recorded and provided for students to access asynchronously (such as through a learning management system or private online video channel).
 - ☑ Technology is used to provide additional ways to access key content, such as providing videos or other visuals to supplement verbal or written instruction or content.
 - ☑ Text to speech and/or speech to text software is utilized to provide increased support for comprehension of written or verbal language.
 - ☑ Assistive technology is utilized.
 - ☑ Technology is used to increase options for students to demonstrate knowledge and skill.
 - ☑ Learning games and other interactive software are used to supplement instruction.
 - ☐ Other (please identify in Question 4a, below)

10. How does the district use instructional technology to facilitate culturally responsive instruction and learning environments? Please check all that apply from the provided options and/or check 'Other' for options not available on the list.

~	The district uses instructional technology to strengthen relationships and connections with families to assist in building a culturally responsive
	learning environment to enhance student learning.
	The district uses instructional technology to facilitate classroom projects that involve the community.
	The district uses instructional technology to develop and organize coherent and relevant units, lessons, and learning tasks that build upon
	students' cultural backgrounds and experiences.
₹	The district uses instructional technology to assist in varying teaching approaches to accommodate diverse learning styles and language
	proficiencies.
	The district uses instructional technology to enable students to communicate and collaborate with students in different schools or districts in New
	York State, the United States, or with different countries.
₹	The district uses instructional technology to facilitate collaborative classroom projects among heterogeneous student groups.
	Other (places identify in Question 10s helow)

For help with completing the plan, please visit 2022-2025 ITP Resources for Districts on our website, contact your district's RIC, or email edtech@nysed.gov.

2022-2025 Instructional Technology Plan - 2021

VI. Administrative Management Plan

Page Last Modified: 06/24/2022

1. Staff Plan Provide the Full-Time Equivalent (FTE) count, as of plan submission date, of all staff whose primary responsibility is delivering technology integration training and support and/or technical support.

	Full-time Equivalent (FTE)
District Technology Leadership	0.25
Instructional Support	0.00
Technical Support	0.00
Totals:	0.25

2. Investment Plan Provide a three-year investment plan to support the vision and goals. All costs must be calculated for the entire three year-period, not annualized. For example, if a cost occurs annually, the estimated cost should include the annual cost times three. Provide a three-year investment plan to support the vision in Section II and goals in Section IV. A chart with drop-down choices is provided in order for NYSED to obtain consistent responses to this question. All cells in the table must be populated. If you have less than four items in your plan, you must choose N/A for columns one, two, four, five and six, and put zero in column three (estimated cost) for each unneeded row.

	Anticipated Item or Service	"Other" Anticipated Item or Service	Estimated Cost	Is Cost One-time, Annual, or Both?	Potential Funding Source	"Other" Funding Source
	Professional Development	N/A	10,000	Annual	□ BOCES Co- Ser purchase □ District Operating Budget □ District Public Bond □ E-Rate □ Grants □ Instructional Materials Aid □ Instructional Resources Aid □ Smart Schools Bond Act □ Other (please identify in next column, to the right) □ N/A	N/A
2	Staffing	N/A	388,951	Annual	 ☑ BOCES Co- Ser purchase □ District Operating Budget □ District Public Bond □ E-Rate 	N/A

					Aid Smart Schools Bond Act Other (please identify in next column, to the right) N/A	
Totals:			1,284,476			

3. Has the school district provided for the loan of instructional computer hardware to students legally attending nonpublic schools pursuant to Education Law, section 754?

No

4. Districts are required to post either the responses to this survey or a more comprehensive technology plan that includes all of the elements in this survey. Please provide the URL here. The URL must link to a public website where the survey or plan can be easily accessed by the community.

About Our School (secsd.org) (A Strategic Plan page will be added to this section of our website. All plans will be linked from this page.)

For help with completing the plan, please visit 2022-2025 ITP Resources for Districts on our website, contact your district's RIC, or email edtech@nysed.gov.
